All-Weather 78

Goodyear's All-Weather 78 is built with polyester cord that's first tempered in an ex-clusive Goodyear process to set the cord at optimum strength and resilience. The wide 78-series tread is "reverse molded," a technique borrowed from race tire production. In reverse molding, the contour of the tread surface is slightly concave as it comes from the mold — so that when the tire is inflated, the tread makes full, flat contact with the road. And the rib-type tread design is well grooved, with plenty of traction edges to provide decisive grip. In every detail, our All-Weather 78 gives you honest quality, at a price that's in step with the time.
